### Parent Focus Group

**We're seeking input into how we can better serve you and your family.** It was input from parents like you that encouraged us to increase our programming and to specifically target teens. But that was back in 2004. It's time to update!

Please join a discussion with members of our [Board of Trustees](#), and be part of our Long Range Plan. We've got multiple meetings scheduled, which we hope to receive input from parents of children and teens. If you are unable to attend one of them, feel free to drop us a note or [email](#) Library Director, Jill LeMay.

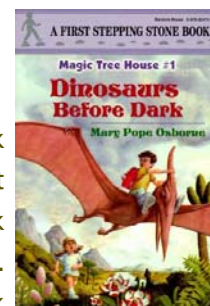

Meetings will be held on [Sat. Jan. 26 at 10:30 AM](#) and [Tues, Jan. 29 at 4 PM](#). Let us know if you'll need childcare during either meeting. The Tuesday meeting takes place during our Legos Club, open to children ages 6 and older who have pre-registered. We are hoping parents will stay for the Focus Group during this time.

We'll also [meet at the end of storytimes during the week of Jan. 28-31](#). We'll bring out toys to entertain the kids while the grownups talk. We hope to hear from you!

### Magic Tree House Book Club for Grades K-4

Wed. Jan. 16 at 4 PM

Imagine... a tree house filled with books! Pick one up, and you are transported to a different time and place! This is just what siblings Jack and Annie find in the woods near their house. Our newest book club for children will join Jack and Annie for adventures across a broad spectrum of fact, farce and fantasy. Each month, we will focus on a different title in the series, and bring it alive with crafts, games and more. The Library will have extra copies for children to read ahead of time. This month's selection will be [Dinosaurs Before Dark](#), the first book in

the series. Call or [email](#) to reserve a copy for your child!

Let us know if you need  
childcare for siblings.

### Parenting Class

Stevie Westmoreland, LMFT, LCPC, will be leading a monthly parenting class on **Friday, Jan. 18 from 9:30 to 11 AM**. Each month, a new topic is addressed. In our January meeting, we will work on developing reflective language that fosters right and left brain integration.
